NR810

RIDE-ON SCRUBBER

Robust design

High performance

Easy maintenance

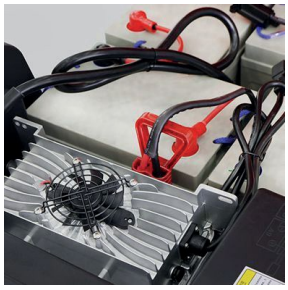
Why choose between price and quality when you can have both !

NR810 - PRODUCT OVERVIEW

// Features and benefits

- This scrubber has a compact design, with a low centre of gravity, a tight turning circle and excellent manoeuvrability;
- The integrated keys are waterproof. The LCD screen and the parameters displayed are easy to read and intuitive to use, making it quick and efficient to provide maintenance data;
- Customised use, with three speed modes and adjustable water flow;
- Features protection against motor overload and battery undervoltage, effectively extending motor and battery life.
- The ECO mode reduces the power and noise level of the suction motor, making this scrubber-dryer the ideal tool for areas with low noise levels.
- Its innovative design allows the brushes and squeegee to be raised and lowered electrically at the touch of a button.
- The squeegee is automatically raised when reversing, making this washer reliable and efficient;
- The brush/buffer technology is easy and convenient to assemble and disassemble.
- Large 120-litre capacity for the solution and recovery tanks, effectively reducing the number of fill-ups and drain-downs. Automatic alarm for empty solution tank and full recovery tank.
- The large opening of the recovery tank provides easy access for cleaning and maintenance.
- The seat is equipped with an emergency stop, and automatic stop technology when the driver leaves the seat.

NR810 - PRODUCT FEATURES

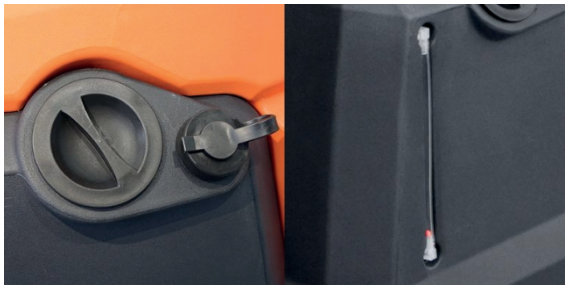


// High-performance battery

Equipped with a powerful, safe and reliable maintenance-free lead-acid battery for long-lasting use.

// Hygroscopic seal

The wear-resistant adhesive strip, designed in the shape of a bow, allows you to easily scrape off and absorb water without deposits.



// Easy to fill and check water levels

The tank water level display and large water injection opening make it easy to add clear water.

// A control panel

The integrated touch panel is waterproof, intuitive and quick to use.

// A steering wheel fitted with

An ergonomic steering wheel, with a steering wheel ball, that's very comfortable to use.

// The charging socket

The scrubber has an external charging socket for easy recharging.

// Powerful non-slip drive wheel

The front drive wheel is non-slip and high-powered, and its ramp does not tilt, making it safer.

// Accessible recovery tank

Equipped with a tank that can be easily opened without tools, making it easy to clean and maintain.

Technical specifications			
1	Model		NR810
2	Cleaning diameter (brush diameter)	(mm)	810
3	Squeegee width	(mm)	2x410
4	Product tank capacity	(L)	120
5	Recovery tank capacity	(L)	120
6	Cleaning capacity (area/time)	(m^2/h)	4860
7	Continuous working time	(h)	4~5
8	Rated motor power	(W)	2x380
9	Suction motor power rating	(W)	600
10	Rated power of drive motor	(W)	650
11	Travel speed	(km/h)	0~6,5
12	Noise level dB	(A)	68±3
13	Battery		24V (2×6V/200Ah)
14	Battery weight	(kg)	4x33,7
14	Net weight (without battery)	(kg)	330
15	Product dimensions (LxWxH)	(mm)	1415×600×1010
